**INFORMATION DISCLOSURE STATEMENT  
FOR CONTINUING APPLICATIONS**

Listed on the accompanying form PTO-1449 are several English-language documents and one German-language document (DE-A 2 930 725). DE-A 2 930 725 was cited during prosecution of a corresponding European application. Our understanding of DE-A 2 930 725, based on European counsel's review of the document, is that it discloses a dispensing carton (as shown in Figs. 1-3 of DE-A 2 930 725) that includes a front panel (1), a bottom panel (2), a rear panel (3), each having panels at opposite ends to form the ends of the carton (7, 8); a lid (4) connected to the rear panel (3) and a flange (5) joined to the lid to overlap with the front panel and a cutting edge (11) formed on the flange (5), the cutting edge (11) being saw-toothed and formed from a polymeric tape material (13) and the polymeric material being adhered to the matching saw-toothed edge of the flange. The cutting edge formed from the flange and the polymeric tape (13) is finally formed upon tearing off a strip of the flange (12) along a preformed

cutting line. The material of the film (13) is an acetate film, typically made of cellulose acetate.

Applicants respectfully request that the documents be listed as references cited on the issued patent.

The present application relies upon U.S. Patent Application No. 09/736,512, which was filed December 13, 2000, for an earlier filing date under 35 U.S.C. § 120. Furthermore, documents listed on the accompanying form PTO-1449 were disclosed to or cited by the Patent Office in the earlier U.S. application.

Copies of the documents listed on the accompanying form PTO-1449 that were cited by applicants in the earlier application need not be sent to the Patent Office pursuant to 37 C.F.R. § 1.98. However, applicants will furnish the Patent Office with such copies upon request.

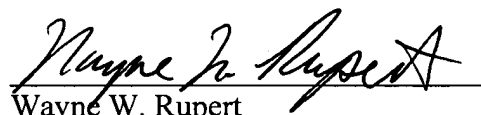

Please charge any additional fees that may be required in connection with filing this Information Disclosure Statement, or credit any overpayment, to Deposit Account No. 02-4550. A duplicate copy of this sheet is enclosed.

The filing of this Information Disclosure Statement shall not be construed to be an admission that the information cited in the statement is, or is considered to be, prior art or otherwise material to patentability as defined in 37 C.F.R. §1.56.

Respectfully submitted,

KLARQUIST SPARKMAN, LLP
